DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed October 4, 2001 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information regarding the EUROSPEECH' 97 article to Nakatoh et al. has not been considered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."

Allowable Subject Matter

2. **Claims 1-50** are allowed.

The following is a statement of reasons for allowance:

As for independent claims **1, 8, 14, 16, 25, 30, 32, 34, 44, 47 and 49**, they recite a method of producing a wideband signal from a narrowband signal. Prior art such as Breen and Tshushima et al. show similar methods but fails to teach the recited generating a wideband signal by computing area coefficients from the narrowband signal.

Dependent claims **2-7, 9-13, 15, 17-24, 26-29, 31, 33, 35-43, 45-46, 48 and 50** are allowed because they further limit their parent claims.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Tsushima et al. (USPN 5,978,759) discloses an apparatus for expanding narrowband speech to wideband speech by codebook correspondence of linear mapping functions.
- Breen (USPN 6,691,083) discloses a wideband speech synthesis from a narrowband speech signal.
